NOTES:

3.5 years old liver bitch, very nice type and proportions, lovely wedge shaped feminine head with all the essentials, balanced in angulations, good topline and tailset could be a little bit higher, good developed ribs and strong loins, good bone and feet, moves a little close behind but with good drive, is a little proud on her tail when she goes round, lovely thick coat for this time of year and very good curl, excellent muscle condition and very nice behavior in the ring
